PROJECTS

Enterprise E-Commerce Garments Portal

- A secure web application designed for the garment industry to manage enterprise documents and facilitate seamless communication between employees, wholesalers, and end-users. It streamlines document handling and implements secure access controls to ensure smooth business operations.

Internship & Placement Portal with Resume Builder

- A comprehensive web-based platform featuring an automated resume builder, job recommendations, and data-driven dashboards. It uses analytics to assist students, recruiters, and placement officers in streamlining the recruitment process through automated notifications.

Reliable Transit & Ride Sharing Platform

- A shared mobility solution designed to handle real-time ride requests and live tracking. The platform focuses on delivering cost-effective transportation through a user-friendly interface that manages request acceptance and rider convenience.
